Dear Luke AFB Supporters:

As small business owners in Avondale and long-time West Valley residents, my wife and I are proud to support Luke Air Force Base in its current and future missions especially as Luke is considered as a training site for the F-35 Joint Strike Fighter. A strong Luke today and tomorrow affords us the opportunity to continue operating our business in our hometown.

The economic impact of Luke to Arizona's economy is \$2.17 billion annually, which means that all of our patrons and neighbors rely on Luke's presences in Arizona for our livelihood. A future mission at Luke means our economy will continue to be strong into the future.

A Grill on the Go is honored to support the men and women of Luke Air Force Base and the F-35 mission.

Sincerely,

Brian Askeland
