August 28, 2009

Dear Luke AFB Supporters:

I am proud to be a supporter of Luke Air Force Base as it is a major part of Arizona's economic base and provides employment to over 7,000 Arizonans. That alone, would be an excellent reason to support the consideration of Luke becoming the home of the F-35 training mission.

However, there is so much more about Luke Air Force Base that makes all of us, as Arizonans, proud to call the base our own. For over 60 years Luke Air Force Base has provided needed training and support for our Air Force. Our safety is an important part of the mission for this base.

Luke is a viable and prospering base which can continue to provide jobs and support to all of Arizona. We Prescottonians are in full support of Luke being selected as the home to the F-35.

Sincerely,

Jack D. Wilson, Mayor
