

✓ **Chamber supports school district  
override, Luke as F-35 training base**

The Chamber's Board of Directors has recently gone on record supporting the continuation of the maintenance and operations override funds for the Glendale Union High School District. Continuation of the current override will not increase taxes and allows for continuation of successful programs directed toward student achievement.

The board also passed a resolution of support to the Department of Defense for Luke Air Force Base's selection as a training site for the F-35 Lightning II. The base is being considered as one of the top two choices as a training site for the Air Force's newest fighter jets. Luke is a major force in the state of Arizona's economy, with an annual impact of more than \$2.1 billion.
